1. Introduction

These cabinets is designed for professional stage performance .Using density Particle Board and high quality carpet for the body of the cabinet made it more durable .The special handle shows unique Italy style. With the accurate crossover point made the timbre very clean.

ES12M adopt special horn in polypropylene reinforced. With wide directional angle $80^{\circ} \pm 10^{\circ}$ (1KHZ-16KHZ)and 180W AES/360W Peak power. Matching the ELVIS 12S/15S(SUB WOOFER) with ELVIS 12/15 made the acoustics of the cabinet clean and the bass strong. All these characters made it very suitable for any place.
