

Illustration is DMF-3020.

\* Refer to parts list on page 23.

In compliance with Federal Regulations, following are reproductions of labels on, or inside the product relating to laser product safety,

Refer to 1050MD/DM-5090/DM-9090 service manual (B51-5387-00) if you see the mechanism test mode.

KENWOOD-Corp. certifies this equipment conforms to DHHS Regulation No.21 CFR 1040.10, Chapter 1, Subchapter J.

DANGER : Laser radiation when open and interlock defeated.  
AVOID DIRECT EXPOSURE TO BEAM.

### Accessories

Check that the following accessories are present.

Audio cord (2)  
(E30-0505-05)

System control cord (1)  
(E30-2733-05)

Optical fiber cable (1)  
(B19-1529-05)

Remote control unit (1)  
RC-M0705 (For DMF-5020)  
(A70-1238-05)

Battery cover (A09-1116-08)

Remote control unit (1)  
RC-M0302 (For DMF-3020/MD-203)  
(A70-1239-05)

Battery cover (A09-0374-08)

Batteries (2)  
R03 ("AAA"-size) batteries (For RC-M0705)  
R6 ("AA"-size) batteries (For RC-M0302)

### Cautions

#### Note related to transportation and movement

Before transporting or moving this unit, carry out the following operations.

1. Set the **POWER** key to **ON** without loading a Mini Disc.
  - Check that no disc is present in the unit.
2. Wait a few seconds and verify that the display shown appears.
3. Set the **POWER** key to **OFF**.

NO DISC

#### Operation to reset

The microprocessor may fall into malfunction (impossibility to operate erroneous display, etc.) when the power cord is unplugged while power is ON or due to an external factor. In this case, execute the following procedure to reset the microprocessor and return it to normal condition.

**With the **POWER** key left to ON, unplug the power cord from the power outlet then, while holding the eject (▲) key depressed, plug the power cord again.**

- Please note that resetting the microprocessor clears the contents stored in, it returns the microprocessor to the condition when it left the factory.

#### Caution on condensation

Condensation (of dew) may occur inside the unit when there is a great difference in temperature between this unit and the outside.

This unit may not function properly if condensation occurs. In this case, leave the unit for a few hours with the power left ON, and restart the operation after the condensation has dried up.

**Be specially cautious against condensation in a following circumstance:**

When this unit is carried from a place to another across a large difference in temperature, when the humidity in the room where this unit is installed increases, etc.

#### Memory backup

The typical period for which the memory can be backed up while the power cord is unplugged or the **POWER** key is set to the **OFF** position is about 3 weeks, though this may be variable depending on the surrounding environment.

In case of long hours of power failure or slipping out of the power cord, the data related to recording and editing (that is usually recorded at the moment the Mini Disc is ejected) may be cleared or destroyed before it is written in the Mini Disc. Remember that the data lost cannot be recovered.

After recording or editing, be sure to eject the Mini Disc so that the recording or editing data can be written in the disc.

# Display / Main unit

## Listening through headphones

Plug the stereo headphones (with standard-plug) available in audio stores into the **PHONES** jack and adjust the listening volume with the **OUTPUT LEVEL** control on the front panel. The default value is 0 dB (maximum volume).

## Standby mode

While the standby indicator of the unit is lit, a small amount of current is flowing into the unit's internal circuitry to back up the memory. This condition is referred to as the standby mode of the unit. While the unit is in the standby mode, it can be turned ON from the remote control unit.

## Description of main unit keys

- 1 POWER key**
  - : Press to turn the unit ON and OFF.
  - : The unit may enter the standby mode when the **POWER** key is pressed to turn it ON. This is because the unit holds the memory that it has been put to the standby mode by the remote control unit in the last operation.
- 2 Remote control sensor**
- 3 Mini Disc insertion slot**
  - : When a Mini Disc is inserted while the unit is in the standby mode, it is turned ON automatically.
- 4 Eject (▲) key**
  - : Press to eject the Mini Disc.
- 5 Stop (■) key**
  - : Press to stop playback or recording.
- 6 Play (▶) key**
  - : Press to start playback.
- 7 Manual search down (◀◀) key**
  - : This key functions as the fast reverse key during playback.
  - : During an editing mode, press to move the title input cursor or to scroll the track title display to the left.
- 8 Manual search up (▶▶) key**
  - : This key functions as the fast forward key during playback.
  - : During an editing mode, press to move the title input cursor or to scroll the track title display to the right.
- 9 Pause (||) key**
  - : Press to let playback or recording pause temporarily.
- 10 REC LEVEL knob**
  - : Rotate to adjust the analog recording level.
- 11 TIMER switch**
  - : This switch is used in timer playback and timer recording.
- 12 TITLE INPUT key**
  - : Press to switch the title input mode ON/OFF.
- 13 REC INPUT key**
  - : Press to switch the recording input line between digital (optical/coaxial), analog and monaural.
- 14 MONITOR/DELETE key**
  - MONITOR**
    - : Press to monitor the sound being input from the source while the unit is in stop mode.
  - DELETE**
    - : During title editing, press to delete a character. During track editing, press to delete a track.
- 15 REC MODE/CHARAC. (Character) key**
  - REC MODE**
    - : Press to switch the recording setting adjustment modes (record modes) ON/OFF.
  - CHARAC.**
    - : Press to select a character group during the title input operation.
- 16 SET key**
  - : For use in setting the editing result and input title in memory.
  - : When pressed in the recording pause mode, the MEMORY REC function is set and recording starts from the sound approximately 6 seconds before the current sound.
- 17 JOG DIAL**
  - Skip down (◀◀) / Skip up (▶▶) knob**
    - : During playback, rotate to skip tracks.
    - : Before starting recording in record mode, rotate to select the recording setting adjustment mode.
    - : During title search, rotate to select a track number.
    - : During title input, rotate to select a track number or a character.
    - : During editing, rotate to select the editing mode or a track number.
- 18 ENTER/TIME DISPLAY key**
  - ENTER**
    - : For use in executing the editing and title input operations.
  - TIME DISPLAY**
    - : Press to switch the time and title display modes.
- 19 EDIT/SPACE key**
  - EDIT**
    - : Press to switch the editing mode ON/OFF.
  - SPACE**
    - : Press to insert a blank space character during the title input operation.
- 20 OUTPUT LEVEL DOWN (▽) key**
  - : Use this to decrease the volume of the headphones and the output level.
- 21 OUTPUT LEVEL UP (△) key**
  - : Use this to increase the volume of the headphones and the output level.
- 22 Record (●) key**
  - : Press to start recording.
  - In stop mode**
    - : When the ● key is pressed while a recordable disc is present in the unit, it enters record-pause mode. (It enters record-pause mode at the position immediately after the last existing track.)
  - In record-pause mode**
    - : When the ● key is pressed, the SOUND SYNCHRO REC standby mode is set.
    - : In the SOUND SYNCHRO REC standby mode, the set functions in the same way as in the normal recording pause mode.
- 23 PHONES jack**
  - : Connect stereo headphones (optional) here.

## Remote control unit (DMF-3020/MD-203)

The remote control unit incorporates the basic operation keys as well as a variety of applied operation keys so that it can be used in a wide range of purposes.

The keys on the remote control unit with the same names as on the main unit have the same function as the keys on the main unit.

### ① Numeric keys / Character editing keys Numeric keys

0-9

: Press when selecting a track number directly.

+10

: Press when selecting a track number 10 or more.

+100

: Press when selecting a track number 100 or more.

: These keys are also used to select a character or symbol during title editing.

### CHARACTER DELETE / CLEAR key

#### CHARACTER DELETE

: During title input, press to delete a character.

#### CLEAR

: During editing, press to clear a selected track number.

: In program mode, press to clear the program.

### CHARACTER SPACE / CHECK key

#### CHARACTER SPACE

: During title input, press to insert a blank space character.

#### CHECK

: In program mode, press to check the program contents.

### CHARA. (Character) / P.MODE (Play Mode) key

#### CHARA.

: Press to select a character group during the title input operation.

#### P.MODE

: Press to initiate the program mode.

### ② ON/STANDBY key

: Press to turn the unit between ON and STANDBY (I/O) modes.

### ③ REPEAT key

: Press to switch the repeat modes for repeat playback.

### RANDOM key

: Press to initiate the random play mode.

### ④ OUTPUT LEVEL (Δ▽) keys

: Use these to adjust the output level and the volume of the headphones.

Model: RC-M0302  
Infrared ray system

### ⑤ Editing mode keys

#### REC INPUT key

: Press to switch the recording input line between digital (optical/coaxial), analog and monaural.

#### EDIT key

: Press to switch the editing mode ON/OFF.

#### SET key

: This key is used in the title assignment or editing operations.

: When pressed in the recording pause mode, the MEMORY REC function is set and recording starts from the sound approximately 6 seconds before the current sound.

#### ENTER key

: Press to execute editing or enter the input title in memory.

### ⑥ Basic operation keys

- : Record key
- ⏸ : Pause key
- : Stop key
- ▶ : Play key

### CURSOR / ◀▶, ▶▶ keys

◀▶, ▶▶

: During playback, press to fast forward or fast reverse the play.

### CURSOR

: During title input, press to move the cursor.

### CHARACTER/SEARCH/◀▶, ▶▶ keys

#### CHARACTER

: Press to select a character group during the title input operation.

#### SEARCH

: During title search, rotate to select a track number.

#### ◀▶, ▶▶

: During playback, press to skip tracks in the forward or reverse direction.

### ⑦ Applied operation keys

#### EDIT CANCEL key

: Press to cancel the editing operation.

#### TITLE INPUT key

: Press to switch the title input mode ON/OFF.

#### TITLE SEARCH key

: Press to switch the title search mode ON/OFF.

: During title editing, press to switch the title change input mode between the "overwrite mode" and "insert mode".

#### TITLE DISPLAY key

: Press to switch the time and title display modes.

#### AUTO PAUSE key

: When this key is pressed, the pause mode is initiated automatically at the point where the track number changes during playback.

: When pressed in the recording or recording standby mode, the AUTO REC PAUSE mode is turned on.

#### AUTO/MANU. key

: Selects whether the track numbers are to be marked automatically during recording (AUTO) or to be marked manually after it (MANUAL).

#### MONITOR key

: Press to monitor the sound being input from the source while the unit is in stop mode.

#### METER MODE key

: Press to switch the level meter display contents.

## Remote control unit (DMF-5020)

The remote control unit incorporates the basic operation keys as well as a variety of applied operation keys so that it can be used in a wide range of purposes.

The keys on the remote control unit with the same names as on the main unit have the same function as the keys on the main unit.

### ① ON/STANDBY key

: Press to turn the unit between ON and STANDBY (I/O) modes.

### ② OUTPUT LEVEL (Δ▽) keys

: Use these to adjust the output level and the volume of the headphones.

### ③ Character editing keys

#### TIME DISPLAY key

: Press to switch the time and title display modes.

: Press to select a character group during the title input operation.

#### CHARA. (Character) / P.MODE (Play Mode) key

#### CHARA.

: Press to select a character group during the title input operation.

#### P.MODE

: Press to initiate the program mode.

#### DELETE / CLEAR key

#### DELETE

: During title input, press to delete a character.

#### CLEAR

: During editing, press to clear a selected track number.

: In program mode, press to clear the program.

#### SPACE / CHECK key

#### SPACE

: During title input, press to insert a blank space character.

#### CHECK

: In program mode, press to check the program contents.

### ④ MONITOR key

: Press to monitor the sound being input from the source while the unit is in stop mode.

#### METER key

: Press to switch the level meter display contents.

#### RANDOM key

: Press to initiate the random play mode.

#### REPEAT key

: Press to switch the repeat modes for repeat playback.

### ⑤ Basic operation keys

- ▶ : Play key
- ◀▶, ▶▶ : Skip down/up keys
- : Record key
- : Stop key
- ⏸ : Pause key

Model: RC-M0705  
Infrared ray system

### ⑥ Recording-related keys

#### REC MODE key

: Press to switch the recording setting adjustment modes ON/OFF.

#### AUTO/MANU. key

: Selects whether the track numbers are to be marked automatically during recording (AUTO) or to be marked manually after it (MANUAL).

#### AUTO PAUSE key

: When this key is pressed, the pause mode is initiated automatically at the point where the track number changes during playback.

: When pressed in the recording or recording standby mode, the AUTO REC PAUSE mode is turned on.

#### REC INPUT key

: Press to switch the recording input line between digital (optical/coaxial), analog and monaural.

### ⑦ CURSOR / ◀▶, ▶▶ shuttle

#### CURSOR

: During title input, rotate to move the cursor.

◀▶, ▶▶

: Use this during playback for forward and reverse search.

### ⑧ EJECT (▲) key

### ⑨ Editing mode keys

#### EDIT CANCEL key

: Press to cancel the editing operation.

#### TITLE INPUT key

: Press to switch the title input mode ON/OFF.

#### TITLE SEARCH key

: Press to switch the title search mode ON/OFF.

: During title editing, press to switch the title change input mode between the "overwrite mode" and "insert mode".

#### SET key

: This key is used in the title assignment or editing operations.

: When pressed in the recording pause mode, the MEMORY REC function is set and recording starts from the sound approximately 6 seconds before the current sound.

#### ENTER key

: Press to execute editing or enter the input title in memory.

#### EDIT key

: Press to switch the editing mode ON/OFF.

### ⑩ Numeric keys

0-9

: Press when selecting a track number directly.

+10

: Press when selecting a track number 10 or more.

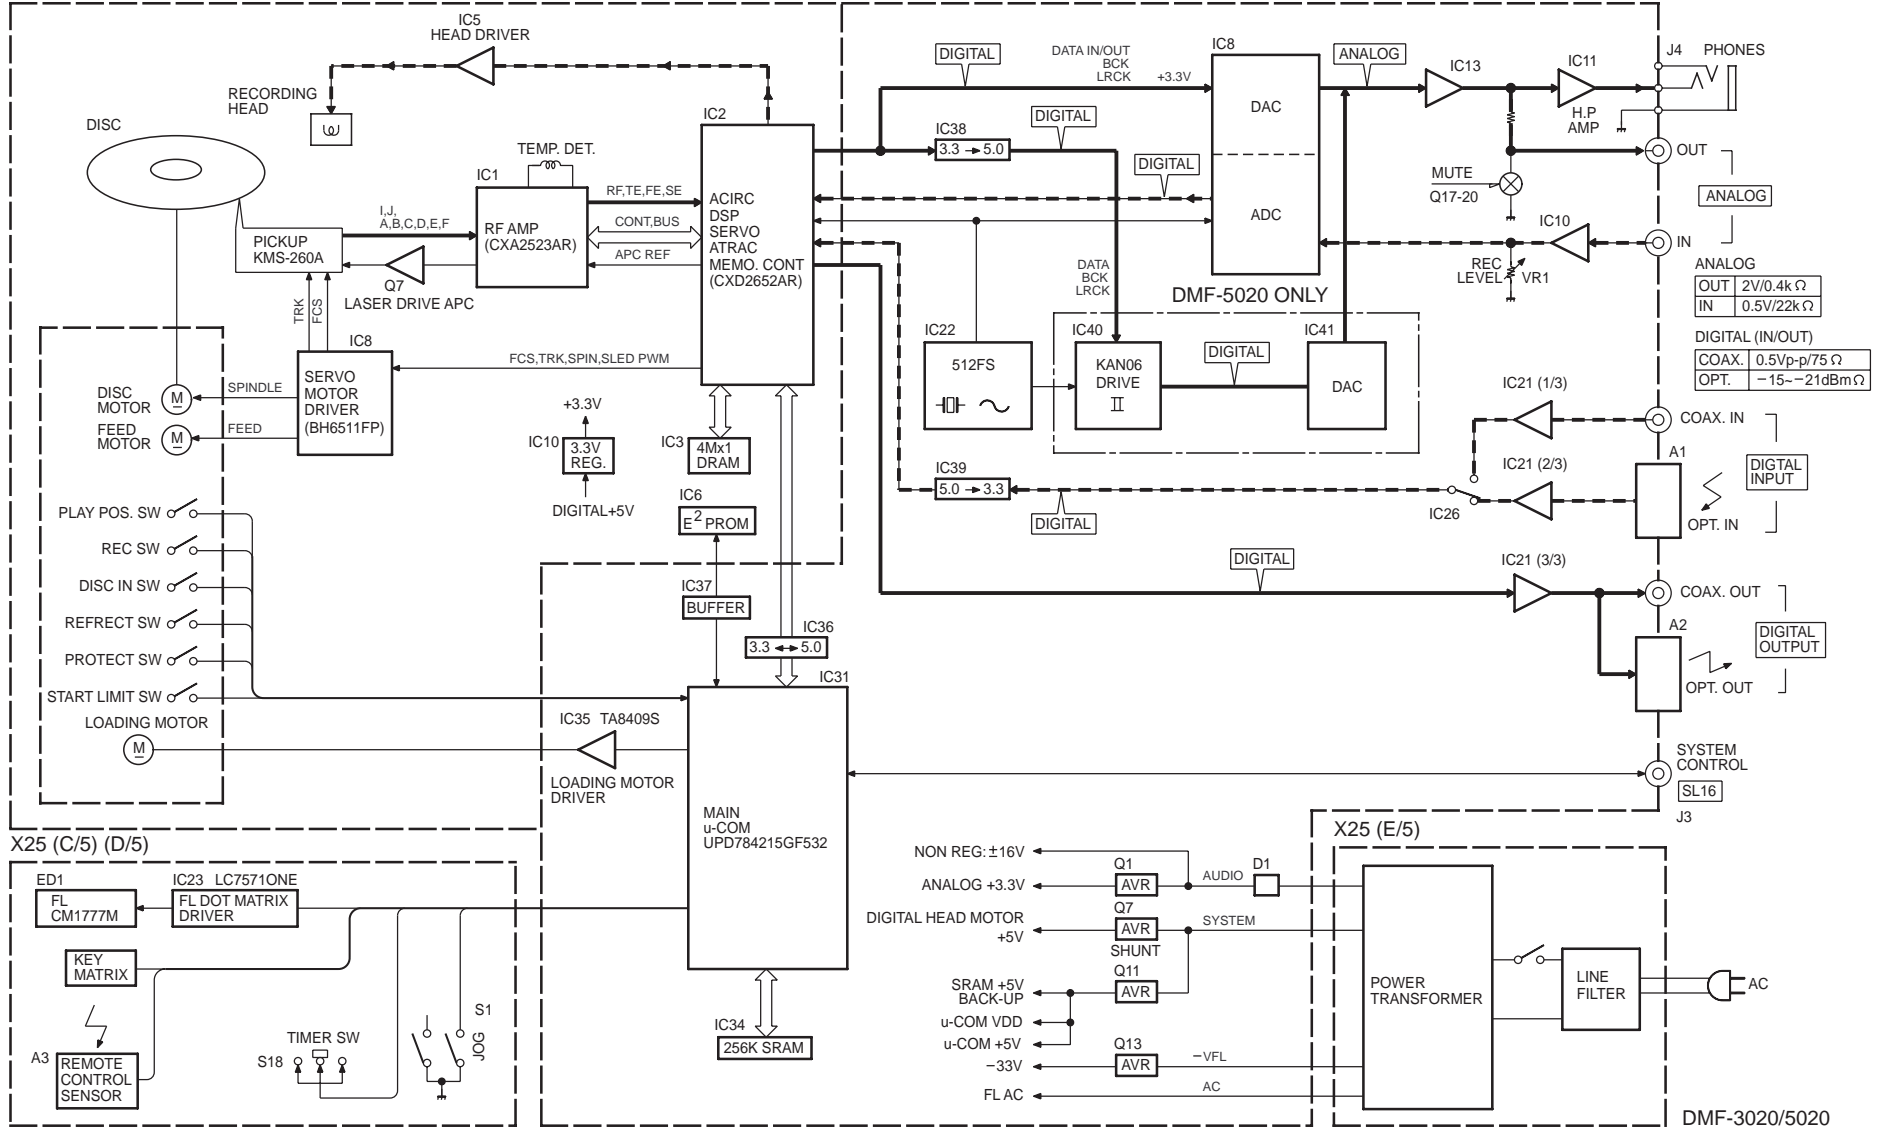

+100

: Press when selecting a track number 100 or more.

: These keys are also used to select a character or symbol during title editing.

### 2-2 Block diagram

### 3. Test mode of the unit

#### 3-1 Setting of the test mode

While pressing the [REC/INPUT] key, plug the AC power cord into the AC wall outlet.

#### 3-2 Contents of the test mode

Choose the 3 mode by TIMER switch position below.

TIMER SW	Mode
(1) REC	INSPECTION
(2) PLAY	ERROR RATE
※ OFF	NONE

※ NONE means none mode.

- (1) [INSPECTION] mode
- 「ENGLISH」 display (2secs)

- " NIAGARA TEST " display
  - Dot : Niagara
  - Segment : All lighting

- Push a key, then cancel " NIAGARA TEST "

#### • Function of the key

Key	Mode
REC/INPUT	※ KEY-TEST
EDIT	NIAGARA TEST
TITLE INPUT	None all lighting

※ Display [ KEY 028 ] into the KEY-TEST mode.

Push a key, then display [ KEY \* \* \* ].

(2) [ ERROR RATE ] mode

#### • Function of the key

Key	Function
PLAY	CPLAY (MID)
REC	CREC (MID)
STOP	STOP CPLAY, CREC (2time push) ERROR RATE

### 4. Microprocessor reset

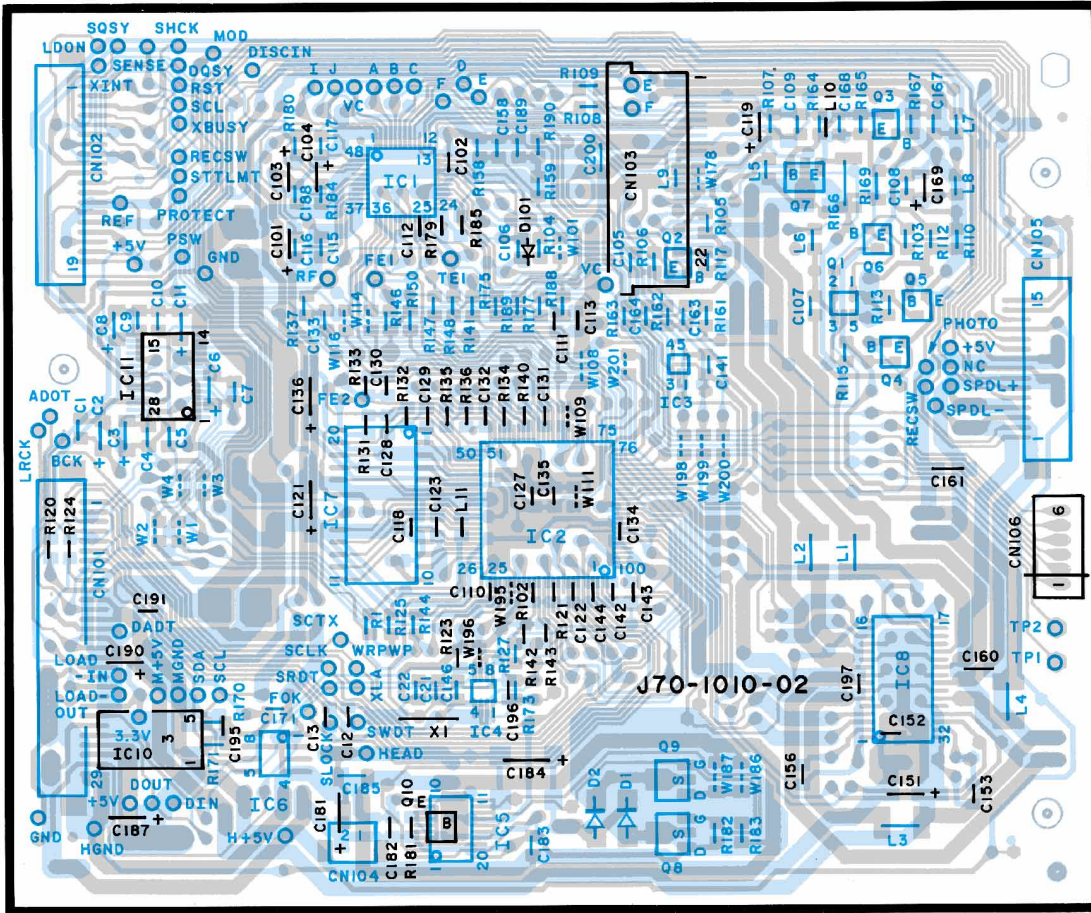

The microprocessor can be initialized while pressing the [EJECT] key, plug the AC power cord into the AC wall outlet.

### 5. Mechanism test mode

Refer to 1050MD/DM-5090/MD-9090 service manual (B51-5387-00), if you see this test mode.

**CAUTION:** For continued safety, replace safety critical components only with manufacturer's recommended parts (refer to parts list). ⚠ indicates safety critical components. For continued protection against risk of fire, replace only with same type and rating fuse(s). To reduce the risk of electric shock, leakage-current or resistance measurements shall be carried out (exposed parts are acceptably insulated from the supply circuit) before the appliance is returned to the customer.

The DC voltage is an actual reading measured with a high impedance type voltmeter. The measurement value may vary depending on the measuring instruments used or on the product. Refer to the voltage during RECORDABLE MD PLAY unless otherwise specified; The value shown in ( ) is the voltage measured at the moment of STOP. The voltage followed by (REC) refers to the value during MD RECORDING.

# DMF-3020/3020(S)/5020/MD-203

## SPECIFICATIONS

### DMF-5020

#### [Format]

System ..... Minidisc digital audio system  
Laser ..... Semiconductor laser  
Recording method ..... Field modulation overwrite method  
Audio compression ..... ATRAC (Adaptive TRansform Acoustic Coding)  
Playing rotation ..... Approx. 400 rpm ~ 900 rpm (CLV)

#### [D/A conversion]

D/A conversion ..... 1 Bit (24 Bit D.R.I.V.E. conversion)  
Oversampling ..... 8 fs (352.8 kHz)

#### [A/D converter]

A/D converter ..... 5 th order sigma-delta conversion  
Sampling frequency ..... 44.1 kHz

#### [Digital audio performance]

Frequency response (playback mode) ..... 8 Hz ~ 20 kHz ( $\pm 1$  dB)  
Signal to noise ratio (playback mode) ..... More than 105 dB  
Dynamic range (playback mode) ..... More than 94 dB  
Total harmonic distortion (1 kHz, playback mode) ..... Less than 0.007 %  
Wow & flutter ..... Less than unmeasurable limit  
Analog input sensitivity / input impedance ..... 500 mV / 22 k $\Omega$  or more  
Analog output level / output impedance ..... 2.0 V / Less than 400  $\Omega$   
Headphone output ..... 20 mW/32  $\Omega$  load  
Digital input  
Coxial ..... 0.5 Vp-p / 75  $\Omega$   
Optical(Wave length 660 nm) ..... - 15 dBm ~ - 21 dBm  
Digital output  
Coxial ..... 0.5 Vp-p / 75  $\Omega$   
Optical(Wave length 660 nm) ..... - 15 dBm ~ - 21 dBm

#### [General]

Power consumption ..... 18 W  
Dimensions ..... W : 440 mm (17 - 5 / 16")  
..... H : 94 mm (3 - 11 / 16")  
..... D : 379 mm (14 - 15 / 16")  
Weight (Net) ..... 4.0 kg (8.8 lb)

1. KENWOOD follows a policy of continuous advancements in development. For this reason specifications may be changed without notice.
2. The full performance may not be exhibited in an extremely cold location (under a water-freezing temperature).

#### Note:

Component and circuit are subject to modification to insure best operation under differing local conditions. This manual is based on Europe (E) standard, and provides information on regional circuit modification through use of alternate schematic diagrams, and information on regional component variations through use of parts list.

## KENWOOD CORPORATION

14-6,Dogenzaka 1-chome, Shibuya-ku, Tokyo, 150-8501 Japan

### KENWOOD SERVICE CORPORATION

P.O BOX 22745, 2201 East Dominguez St., Long Beach, CA 90801-5745, U.S.A.

### KENWOOD ELECTRONICS CANADA INC.

6070 Kestrel Road, Mississauga, Ontario, Canada L5T 1S8

### KENWOOD ELECTRONICS LATIN AMERICA S.A.

P.O BOX 55-2791, Piso 6 plaza Chase, Cl. 47 y Aquilino de la Guardia Panama, Republic de Panama

### KENWOOD ELECTRONICS BRASIL LTDA.

Av Indianópolis, 628, 04062-001 Planalto Paullista São Paulo-SP-Brasil

### KENWOOD ELECTRONICS U.K. LIMITED

KENWOOD House, Dwight Road, Watford, Herts., WD1 8EB., United Kingdom

### KENWOOD ELECTRONICS BELGIUM N.V.

Meachelsesteenweg 418, B-1930 Zaventem, Belgium

### KENWOOD ELECTRONICS DEUTSCHLAND GMBH

Rembrücker Str. 15, 63150 Heusenstamm, Germany

### KENWOOD ELECTRONICS FRANCE S.A.

13 Boulevard Ney, 75018 Paris, France

### KENWOOD ELECTRONICS ITALIA S.p.A.

Via G. Sirtori, 7/9 20129, Milano, Italy

### KENWOOD IBÉRICA S.A.

Bolivia, 239-08020 Barcelona, Spain

### KENWOOD ELECTRONICS AUSTRALIA PTY. LTD.

(A.C.N. 001499 074)

P.O Box 504, 8 Figtree Drive, Australia Centre, Homebush, N.S.W. 2140, Australia

### KENWOOD & LEE ELECTRONICS, LTD.

Unit 3712-3724, Level 37, Tower 1, Metroplaza, 223 Hing Fong Road, Kwai Fong N.T., Hong Kong

### KENWOOD ELECTRONICS GULF FZE

P.O.Box 61318, Jebel Ali, Dubai, U.A.E.

### KENWOOD ELECTRONICS SINGAPORE PTE LTD.

No. 1 Genting Lane #02-02, KENWOOD Building, Singapore, 349544
