**NOTE:**

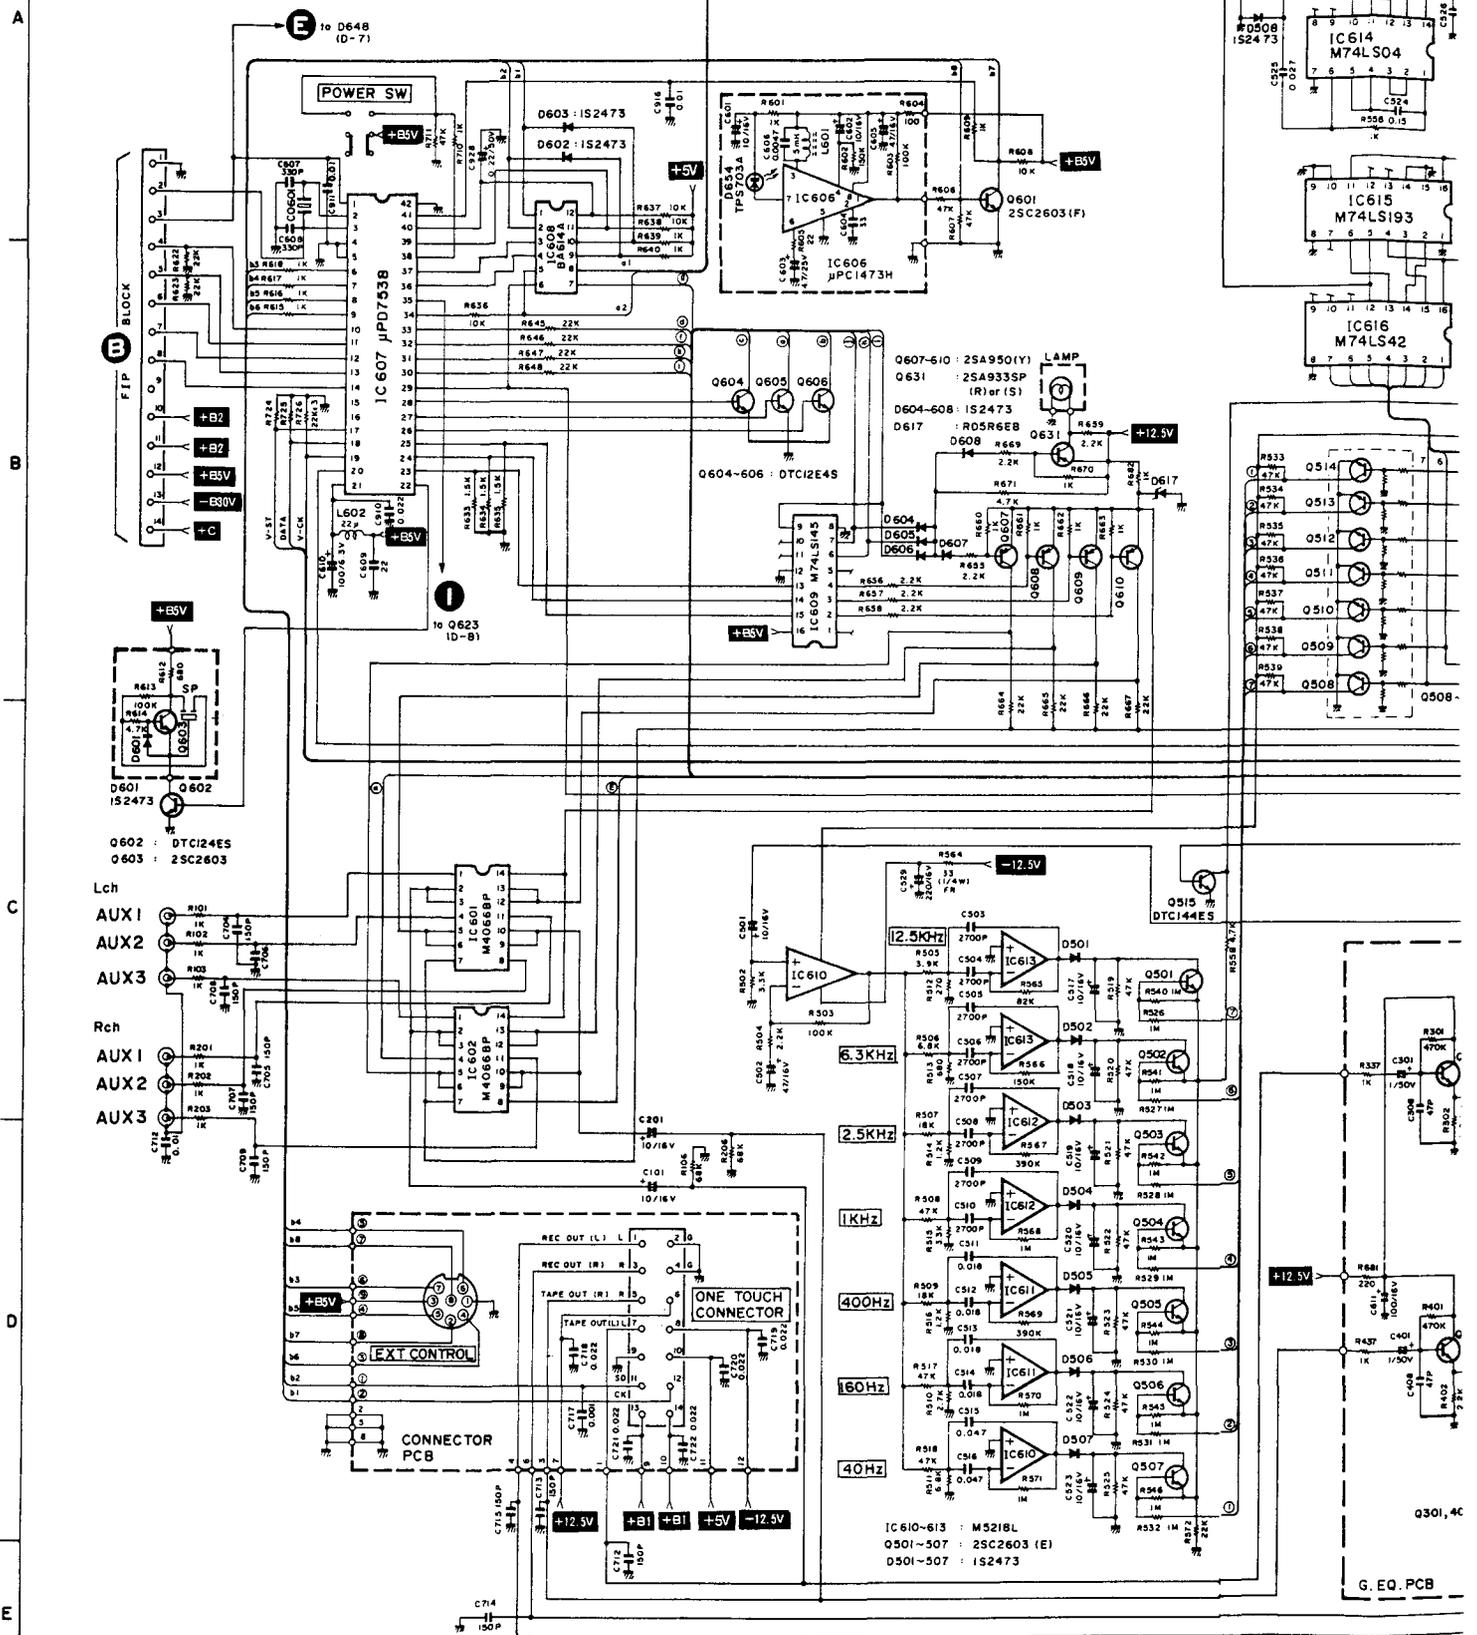

1. Unit of C and R  
 C ..... No-symbol;  $\mu$ F  
           P-symbol; PF  
 R ..... No-symbol;  $\Omega$   
           K-symbol; k $\Omega$   
           M-symbol; M $\Omega$   
 Wattage for all unspecified resistor are 1/4W.
2. Voltage are those measured with DC 1M $\Omega$  digital voltmeter.
3. This circuit diagram may be changed due to circuit improvement.
