

# S570

---

## Region Setting

---

*The above model is delivered factory set to either R1 or R2 depending on the version. To change the region code to your own area please perform the following,*

- 1. Turn on the unit and remove any discs.*
- 2. Call up the OSD menu and select “Settings”.*
- 3.\* Enter the numbers, 741130.*
- 4. After these numbers are entered a screen will appear showing a number of regions to select.*
- 5. After selecting the region press enter, and then turn the unit off for this procedure to take effect.*

*\* Note: Enter this sequence of numbers as quick as possible.*

*This completes the region setting.*
