

T512/532

Region Setting

The above model is delivered factory set to either R1 or R2 depending on the version. To change the region code to your own area please perform the following,

- 1. Turn on the unit and insert the T512/T532 software cd-r.*
- 2. The VFD will display the message “CODE #” . #- number of the current region*
- 3. Enter the region code for your area.*
- 4. After you set the region the cd-r disc will update the player.*
- 5. After completion the tray will eject the cd-r . Remove the disc and power off the unit to have the region setting to take affect.*

This completes the region setting.
