VSX-AX4ASi / VSX-AX2AS
VSX-AX4AVi / VSX-AX2AV

Resetting the system
Use this procedure to reset all the receiver's settings to
the factory default. Use the front panel controls to do this.
1 Switch the receiver into standby.
2 While holding down the front panel AV PARAMETER
button, press and hold STANDBY/ON for about three seconds.

The display shows
RESET?

3 Press the front panel ENTER button.
The display shows **RESET OK?**

4 Press SETUP to confirm.
OK appears in the display to indicate that the receiver
has been reset to the factory default settings.

• Note that all settings will be saved, even if the receiver is unplugged.

VSA-AX10Ai

Resetting the system
Use this feature to reset the system to its factory default
Settings

1 Switch the amplifier into standby.

2 While holding down the front panel DIGITAL NR button,
press and hold STANDBY/ON for about three seconds.
The display shows **RESET?**.

3 Press the front panel OPTION + button. The display shows **OK?**.

4 Within 5 seconds, press OPTION –. The amplifier should now be reset.

Note
• This doesn't affect the presets that you have
programmed into the remote control (see *Using the*
remote control with other components on page 61).
See *Resetting the remote control* on page 10 to do
this.
