SERVICE MANUAL

US Model
Canadian Model
AEP Model
UK Model
E Model

Photo: SILVER

SPECIFICATIONS

Platter	18.3 cm, aluminum-alloy diecast
Motor	DC servo motor
Drive system	Belt drive
Speed	33 1/3 rpm, 45 rpm
Automatic system	Return, reject
Tone arm type	Statically balanced
Cartridge type	Moving magnet type
Stylus	CN-234
General	
Dimensions	Approx. 270 × 88.5 × 320 mm (w/h/d) (10 3/4 × 3 1/2 × 12 5/8 inches)
Mass	Approx. 1.9 kg (4 lbs 3 oz)
Power requirement	220 - 230 V AC, 50 / 60 Hz (AEP, UK MODEL) 110 - 120 or 220 - 240 V AC adjustable, 50 / 60 Hz (E MODEL) 120 V AC, 50 / 60 Hz (US, Canadian MODEL)
Power consumption	4 W
Supplied accessory	45 rpm adaptor (1)

Design and specifications are subject to change without notice.

Replacing the Stylus

Use the procedure below to replace the stylus after about 400 hours of use because a worn stylus will damage records. A CN-234 replacement stylus is available at your Sony dealer.

- 1 Turn off the amplifier.
- 2 While holding the cartridge, detach the stylus assembly as illustrated.
- 3 Insert the new stylus into the cartridge.

SAFETY-RELATED COMPONENT WARNING !!

COMPONENTS IDENTIFIED BY MARK \triangle OR DOTTED LINE WITH MARK \triangle ON THE SCHEMATIC DIAGRAMS AND IN THE PARTS LIST ARE CRITICAL TO SAFE OPERATION. REPLACE THESE COMPONENTS WITH SONY PARTS WHOSE PART NUMBERS APPEAR AS SHOWN IN THIS MANUAL OR IN SUPPLEMENTS PUBLISHED BY SONY.

ATTENTION AU COMPOSANT AYANT RAPPORT À LA SÉCURITÉ!!

LES COMPOSANTS IDENTIFIÉS PAR UNE MARQUE \triangle SUR LES DIAGRAMMES SCHÉMATIQUES ET LA LISTE DES PIÈCES SONT CRITIQUES POUR LA SÉCURITÉ DE FONCTIONNEMENT. NE REMPLACER CES COMPOSANTS QUE PAR DES PIÈCES SONY DONT LES NUMÉROS SONT DONNÉS DANS CE MANUEL OU DANS LES SUPPLÉMENTS PUBLIÉS PAR SONY.

STEREO TURNTABLE SYSTEM

SONY®

SECTION 1 GENERAL

This section is extracted from instruction manual.

Connections

Assembling the Turntable

- 1 Turn the large plastic gear counterclockwise until the notch aligns with the small plastic gear.
- 2 Remove the adapter for 17-cm records from the adapter stay.
- 3 Gripping the platter through the two holes, place it carefully onto the spindle.
- 4 Turn the platter clockwise until the ribbon tape aligns with the pulley, then pull both ends of the ribbon, gently stretching the rubber belt around the pulley.
- 5 Carefully remove the ribbon tape without twisting the rubber belt.
- 6 Put the adapter for 17-cm records back into the adapter stay, aligning the ▼ mark on the adapter stay with the ▲ mark below.
- 7 Place the rubber mat onto the platter.

Playing Records

- 1 Place a record on the platter.
- 2 Press **SPEED** to select the speed. The indicator lights to show the selected speed.
- 3 Remove the cover from the cartridge.
- 4 Press **ARM LIFTER**. The tone arm rises.
- 5 Move the tone arm to the proper position over the record. The platter automatically starts rotating.
- 6 Press **ARM LIFTER** again. The tone arm lowers onto the record and the record starts playing.

When the record comes to an end

The tone arm returns to the arm rest and the turntable stops.

To stop during play

Press **REJECT**.

To move the tone arm to a different point on the record

Press **ARM LIFTER** to raise the tone arm, move the tone arm to the proper position on the record, then press **ARM LIFTER** again.

To play a 17-cm record

Use the supplied adaptor. When you have finished using the adaptor, put it back in the adaptor stay with the ▲ mark aligned to the ▼ mark on the adaptor stay.

If the tone arm begins to return to the arm rest as you move it towards the center

Do not resist this movement, as it may damage the automatic return mechanism.

If the tone arm does not return to the arm rest at the end of the record

Press **REJECT**.

Notes on installation

- Place the turntable on a level surface.
- Avoid placing the unit near electrical appliances (such as a television, hair dryer, or fluorescent lamp) which may cause hum or noise.
- Place the turntable where it will not be subject to any vibration, such as from speakers, slamming of doors, etc.
- Keep the unit away from direct sunlight, extremes of temperature, and excessive dust and moisture.

Note:
 • — : parts extracted from the component side.
 • ▨ : Pattern from the side which enables seeing.

Note:

- All capacitors are in μF unless otherwise noted. pF: $\mu\mu\text{F}$ 50 WV or less are not indicated except for electrolytics and tantalums.
- All resistors are in Ω and $\frac{1}{4}$ W or less unless otherwise specified.

Note:

The components identified by mark Δ or dotted line with mark Δ are critical for safety. Replace only with part number specified.

Note:

Les composants identifiés par une marque Δ sont critiques pour la sécurité. Ne les remplacer que par une pièce portant le numéro spécifié.

- \square : panel designation.
- **B+** : B+ Line.
- \square : adjustment for repair.

- Voltages and waveforms are dc with respect to ground in playback mode.
- Voltages are taken with a VOM (Input impedance 10 M Ω). Voltage variations may be noted due to normal production tolerances.

SPEED ADJUSTMENT

Note: Be sure to perform 33rpm adjustment before 45rpm.

1. Place a stroboscope board on the turntable sheet.
2. Set the speed switch to 33.
3. Set to play mode.
4. Adjust VR1 so that the stripped pattern of stroboscope board is stationary.
5. Set the speed switch to 45. Adjust VR2 in the same way.

SECTION 3 EXPLODED VIEWS

NOTE:

- -XX, -X mean standardized parts, so they may have some difference from the original one.
- Items marked "*" are not stocked since they are seldom required for routine service. Some delay should be anticipated when ordering these items.

- The mechanical parts with no reference number in the exploded views are not supplied.
- Accessories and packing materials are given in the last of this parts list.
- Abbreviation
CND: Canadian model

The components identified by mark \triangle or dotted line with mark \triangle are critical for safety. Replace only with part number specified.

Les composants identifiés par une marque \triangle sont critiques pour la sécurité.

Ne les remplacer que par une pièce portant le numéro spécifié.

SECTION 4 ELECTRICAL PARTS LIST

EQ	LED	POWER
-----------	------------	--------------

Note:

The components identified by mark Δ or dotted line with mark Δ are critical for safety. Replace only with part number specified.

Les composants identifiés par une marque Δ sont critiques pour la sécurité. Ne les remplacer que par une pièce portant le numéro spécifié.

When indicating parts by reference number, please include the board name.

- Due to standardization, replacements in the parts list may be different from the parts specified in the diagrams or the components used on the set.
- -XX, -X mean standardized parts, so they may have some difference from the original one.
- Items marked "*" are not stocked since they are seldom required for routine service. Some delay should be anticipated when ordering these items.
- RESISTORS
All resistors are in ohms
METAL: Metal-film resistor
METAL OXIDE: Metal Oxide-film resistor
F : nonflammable
- SEMICONDUCTORS
In each case, u: μ , for example:
uA...: μ A..., uPA...: μ PA..., uPB...: μ PB...,
uPC...: μ PC..., uPD...: μ PD...
- CAPACITORS
uF : μ F
- COILS
uH : μ H
