

Circuit Diagram from SERIAL NO. 1,220,501 with terminal configuration and with the signalway show.

| VOLUME                         | BASS               | TREBLE          |
|--------------------------------|--------------------|-----------------|
| Maks                           | Midstilling        | Center position |
| Max                            |                    |                 |
| FÖLSOMHET VED 1000 Hz OG 35W   |                    |                 |
| SENSITIVITY AT 1000 Hz AND 35W |                    |                 |
| 1                              | 2,5mV              |                 |
| 2                              | 60 mV              |                 |
| 3                              | 230 mV             |                 |
| 4                              | 1mV med 200Ω MIC.  |                 |
| 5                              | 230 mV             |                 |
| 6                              | 11,8 V ved 4Ω last |                 |
|                                | at 4,0 IPRG        |                 |
